PROFESSIONAL CAREER DOSSIER

EXPERIENCE 360°

Three sectors. The same way of working.

A professional journey that connects operations and service, systems and technology, and human performance without mixing the nature of each experience.

HOSPITALITY · F&B · EVENTS

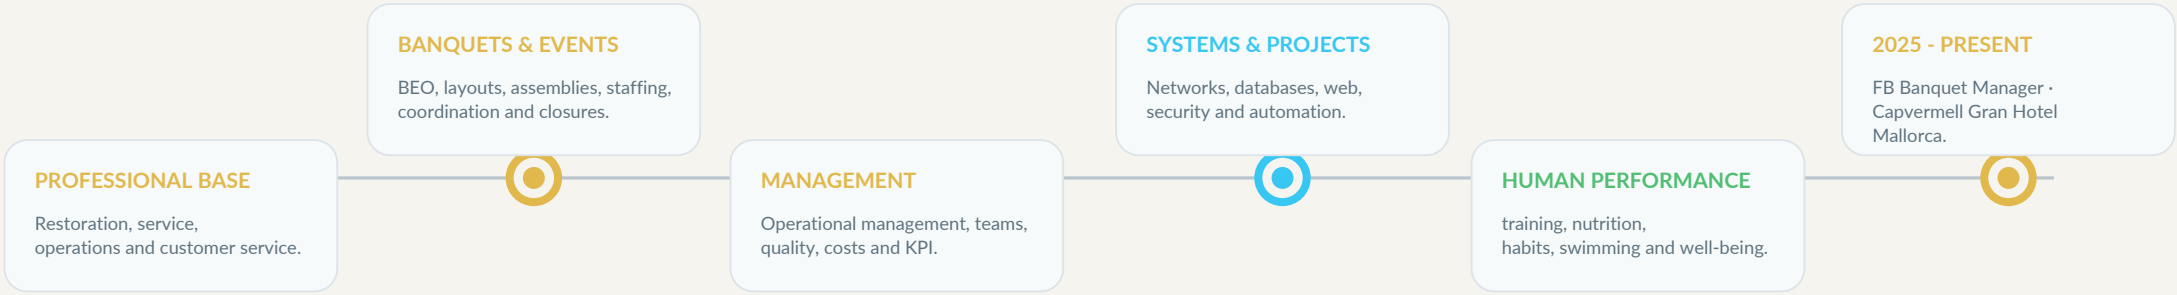

TECHNOLOGY · SYSTEMS

SPORT · PERFORMANCE

01 / TRAJECTORY MAP

They are not three separate races. There are three layers of experience.

Hospitality provides operational depth. Technology provides systems, digitalization and product. Sport provides direct intervention on habits, physical condition and well-being.

HOSPITALITY

23+ YEARS

The most extensive and consolidated work history.

TECHNOLOGY

REAL PROJECTS

Applied experience through proprietary solutions and technical training.

SPORT

PRACTICE + TRAINING

Direct work with training, activities, swimming and habits.

HOSPITALITY F&B; + EVENTS

Professional experience consolidated in service operation premium.

23+ years
professional journey

WHAT I HAVE MANAGED

complex operations, visible service and real pressure.

The experience is not summed up in “service”. Includes preparing, coordinating, execute and close operations with multiple teams, resources, times and customer expectations.

BEFORE

Operational preparation

- BEO, layouts and schedules.
- Staffing by peaks and ratios.
- Purchases, inventory and household items.
- Kitchen-living-event coordination.

DURING

Execution and service

- Briefing and assignment of positions.
- Minute-by-minute supervision.
- Control of 5/5 GL standards.
- Customer service and incidents.

AFTER

Closure and improvement

- Consumption, incidents and closures.
- Productivity and economic control.
- KPI reading and satisfaction.
- Debrief and improvement actions.

Sports experience = professional practice + specialised training

04 / WHAT CONNECTS THE THREE SECTORS

The advantage is not in adding titles. It is in transferring criteria.

Each sector provides a different way of solving problems. Together they build a profile capable of moving between operation, digitalization and human performance.

WHAT I CONTRIBUTE

- Real operational vision
- Coordination capacity
- Improvement mentality
- Technology with purpose

"People, processes, systems and performance: the same discipline applied in different contexts."

LACE AREAS

- F&B; / Banquets / Events
- Operations and coordination
- Sports management
- Digitization projects
